Foil with mesh structure allows the flow of daylight, is a great medium for advertising – for both long exposure and short marketing campaigns. Easy application on the display window or on the rear car window. It enables visibility from inside to outside but not in the other direction.

BANNER & STANDEES

For years advertising banner have been enjoying great popularity, and their main advantage is big versatility and ease of transport and assembly. More than that banners can be freely adapted to the individual needs of the client. In our offer you can find a wide range of visual advertising. We make banners single- and double-sided printed on high-quality materials characterized by full colour and sharpness of colours.
